QUALITY QUEST

Dinner Meeting - Monday, Feb 13th, 2017

Main Speaker: Duke Oakes

Topic: Improving the Problem Idea Solution Generation Process

Speaker Bio & Topic Summary: Duke has worked in quality for more than 40 years, first as a quality engineer with TRW Automotive, and since 1985 as an independent consultant/trainer. He is an ASQ Fellow, is ASQ CMQ/OE, CQE and CQA certified, and holds degrees in technology, business and education. He is the author of "Root Cause Analysis: The Core of Problem Solving and Corrective Action" and "Performance Metrics: The Levers for Process Management."

Improving the Problem Idea Solution Generation Process

"Far too often the simple process of brainstorming is relied on to help identify potential solutions to problems. However, there are more powerful options available that are more rigorous and typically generate a greater number of possibilities that are likely to be more potent and reliable. This presentation will use a systems perspective to cover several different options, including engineering analysis, creative thinking techniques, mistake-proofing, process benchmarking, biomimicry and TRIZ."

Post-Dinner Speaker: Bob Kukla

Topic: The Journey from Organizational Context to Quality Objectives

Speaker Bio & Topic Summary: Bob is the principal member of The CI Quality Consulting Group, Inc. in Edwardsburg, Michigan and has American Society for Quality Fellow Status. He has ASQ Certifications for Six Sigma Black Belt, Quality Engineer, Manager of Quality/Organizational Excellence, Quality Process Analyst, Quality Technician, Calibration Technician, and Quality Auditor and am a RAB/QSA Certified Lead Systems Auditor with experience in corporate staff and line positions in Operations, Product Engineering, Materials, and Quality. He has an MBA Degree from Northern Illinois University and has been performing training and seminars for the 2015 transition.

"The Journey from Organizational Context to Quality Objectives"

"The presentation will provide an exciting ... well, somewhat exciting ... , but often misunderstood, journey from identifying Organizational Context and Interested Parties to Risks within the Scope and Processes. And then provide an equally, if not more exciting, conclusion with suggestions for the development of Quality Objectives per the ISO 9001:2015 Requirements."

ASQ now has Computer-Based Certification Testing

Effective October 2016, all certifications will be offered via CBT. Check out the details online: <http://asq.org/cbt/>

Do You Get Our E-Mails?

This item is for those of you that obtain the newsletter from our web site, but do not receive regular e-mails from Section 1508. We have approximately 80 members listed in our Section for whom we do not have an e-mail address. The cause of this is when the member indicates at the *national* ASQ website that they do not want to receive e-mails. That member's e-mail address is then blinded and we cannot see it at the local section-level. If you are interested in receiving regular emails from us regarding upcoming events, and other news, please contact secretary@asqtampabay.org and provide your full name and preferred e-mail address.

We promise not to sell your e-mail address to any marketing lists!
